Pontiac / Chevrolet Muscle
1965 Pontiac Le Mans
1970 Chevelle Malibu
Bill Ricker / Jeff Hopp

A Special Message from Dave Smith

First of all I want to give a shout out to Bill Ricker for helping me take the engine out of Pat's Chevelle in December.

Thanks to John DeYoung and Ed Stone we got the new motor in Pat's Chevelle in late February, and my fun started, that was a good month.

I for one was glad to see March end. The month started out with me just getting over Covid, I missed the February meeting, tested negative March 2nd, but I missed Mojo's as I didn't want to chance it. Ray Bader and I got the new engine running in the Chevelle the day before my surgery, couldn't even give it a test drive (still have not), had knee surgery on March 5th, started therapy immediately.

When they (Pat and the Therapist) finally let me work a little on the Chevelle, I found a gremlin in the wiring for the forward lamp harness. Tried for days to find it with no luck so I ordered a new one. Thank you American Autowire for having one in stock.

So does everyone feel sorry for me? No I didn't think so. Well, on the brighter side the weather is getting better for the cruise and show season, April is pretty much filled up as we have Good Guys on April 19th to the 21st and May 18th is our show at Midway Baptist and plenty of things before, in between and after. Show planning is going well and looking forward to another great show. Thanks to Les Ray and Cheryl for all their help. Hope to see you all out and about with the shows and cruises coming. Trailer hunting is continuing, boy there is a lot of junk at high prices out there. For 5200 I can go to Georgia and get a NEW one. Go figure.

Thank you, David Smith
President Of The Piedmont Classic Chevy Club

From Jeff Hopp—Newsletter Publisher

I hope you all have been enjoying the monthly editions of The Bowtie Bulletin Newsletters. I've enjoyed capturing images of club members out and about at events I can attend and images that some members have sent me. I have also borrowed photos from club members Facebook Pages. I have also had fun doing research finding cool information for the trivia pieces.

We have had occasional pieces for the "Guess Who Feature." If any of you are interested, you send me a photo from your past. I will post it in the newsletter for PCCC members to guess who you might be.

For the following month and the big reveal, you would then need to send me a recent photo or photos along with a story about you, to describe where you grew up, what schools, or college you may have attended, what your career was (or still is about) and something interesting about your car hobby. So, if you may find this to be an interesting feature, send me a photo of yourself when you were younger and along with a current photo of yourself. Send your story after. I've had several members participate, always fun to learn who we all are. You will also find a questionnaire in the newsletter that will assist the 'non-writers' to submit your story.

Dave Smith has also occasionally submitted How To Tech pieces for some editions. If anyone else wants to provide a tech piece or article, maybe a personal experience or repair that you may have encountered, always interesting.

I'd also like to challenge all of you to get involved with some car photography. As we all have cell phones (yes some can take some awesome photos) and some of us do have nice cameras, how about getting a nice photo of YOUR vehicle with an old abandoned building, or barn, or old gas station...or anything you feel would be a nice image of your car or truck. If you have something you would like to send to me, send along in email and where the image (or images) were taken and a brief story if you have one but no story required. Images and stories will be posted in future newsletters. So, dust off those cameras, gas up those classics (check your oil, coolant, tire pressure) and get out there. I'm looking forward to see what talent you all have. Your images will be featured each month.

If you are interested in sharing a piece about your first classic car, please send me an email with brand of car, a brief description of features (engine, trans, color, options), the year you got it, your age and a photo if you are lucky enough to still have one, along with any entertaining stories. If you do have a photo print, I'll be able to scan it. This feature will be in future newsletters.

Have you walked into a room and forgot why? Can't find your car keys, only to find them in your pocket? If you have something embarrassing you want to share, send me your story.

Please send and stories regarding projects on your car, which could include any special project any of you might have worked on recently, or plan to, document what has been done (with before and after photos if available), some ideas may include, engine rebuild, suspension replacement, engine compartment detailing, interior replacement, wiring harness replacement, or your hotrod build. If you have a photos of your project, send those along with your piece as well.

For the 'Parts For Sale' feature, please submit a brief description of cars for sale or parts (only)...NO PHOTOS, along with the price. The ad must include your name and phone number for you to be contacted with further details of your items. Please contact me if any items are sold to have the listing removed. This feature is for club members only.

NOTE—Please send in Microsoft Word (not a PDF) to my email. Any photos need to accompany your piece as JPG (JPEG) format. Please send any photos to my email below (not a text or Messenger).

Contact me if you have any questions, comments or feedback. Always welcome.

Jeff Hopp jhopp55@att.net 919.665.9318

Upcoming Events

Mr. Ed Lucas (our primary contact who arranged for PCCC to hold our first show at Midway Baptist Church) was the key player in connecting us with Mr. Tim Michaels, President of The Capital Auto Group as our Primary Sponsor for Hilltop Home for Children. Tim, Ed, and many others in his dealership group have a profound love for classic cars just as we do.

Our key point in this arrangement is that Capital Auto Group is comprised of over 30 multi brand dealerships and since PCCC is an "Open" club, we can support their events with our array of American Classics.

Great fit for us as well as C.A.G.

They have committed to donate \$5,000 to our charity. Therefore in return we need to support their shows as best we possibly can in 2024.

Piedmont Classic Chevy Club in return for their generosity, will be supporting many of C.A.G.'s events going forward. Future events for the Capital Auto Group will be coming in 2024 at various dealerships.

Dave Peedin

The Outer Banks Rod And Custom Festival

Tim Martin has initiated a block of 16 rooms at See Sea Motel in Kill Devil Hills, NC. Several of our members have been in the past and had a GREAT time. Last year, OBX boasted of over 900 Classics, Trucks, Hot Rods, Rat Rods, Street Rods, Full Blown Customs, Custom Car Haulers, you name it, it was there. **Show dates are Friday and Saturday May 3rd & 4th 2024.** If you would like to join us, call the hotel or a booking agency and lock in your room. The deadline for booking is March 5th. Don't wait, as about 10 of those rooms have already been taken.

Note : some are going down on Thursday 2nd for a 3 night stay and travel home on Sunday 5th.

Note: when you call for reservations, be sure to tell the receptionist you are with the Piedmont Classic Chevy Club and ask them for our special rate.

Some others will stage a meeting place and travel down early Friday 3rd. It's an easy 3 hour ride straight down US Hwy 64 East all the way to Manteo, Kill Devil Hills, and Kitty Hawk. Do some research on the internet and check out all the nice restaurants and things to do while there.

I will send more detailed travel information out in the coming weeks.

For reservations, you can call the hotel at 252-489-1574 between 9:00 am & 6:00 pm or call 888-215-6768 for booking agency

Check out See Sea Hotel on the internet and also click on the link below for more information about this event.

SPECIAL NOTE: THERE ARE NO TROPHIES OR AWARDS HANDED OUT. THIS IS A FESTIVAL. Also, there are a number of cruise in spots to go to so you don't stay in one place all day.

If you have any questions, call Tim Martin at: 919-210-9688 or Dave Peedin at : 919-612-6998

It all started with... By Ted Korab

My first car was a black 1957 Chevy, 4 door sport sedan, 6 cylinder, and powerglide transmission. My brother had purchased it for me in 1969 for the sum of \$50. However, the transmission was shot (it was stuck in only drive with no other gears).

I went to a local junkyard and managed to get another transmission for \$30. I didn't have any automotive skills at all, but that didn't stop me from borrowing a block and tackle and swing it over a large tree branch, and hoist the engine and transmission out of the car. I replaced the transmission with the junkyard replacement and by some miracle it worked.

Later, I managed to replace the head gasket after borrowing a torque wrench and following instructions from a Chilton manual. The car served me well especially during dating my girlfriend who later became my wife.

My second car was a 1965 Pontiac GTO. This car became instrumental into turning a nerd into a cool guy. It had a 389 with a 4 barrel carb with auto trans. I tested the limits of speed whenever it was convenient, much to the thrill... or fear... of my passengers. Photo attached.

My third car was the first brand new vehicle out of the showroom floor: a 1971 Chevrolet Chevelle. Total cost was \$3800. It was equipped with only a 307 V-8, auto trans and drum brakes front and back. The car was with me through my college years and beyond. It ran "like a top", always started, however the brakes were inadequate and stopping at higher speeds was a challenge.

A Piece Of History—Found By Dave Peedin

On December 15th 2023, I purchased this piece of history from a widow in Pittsboro, NC. Her late husband bought this car brand new from Manor Oldsmobile in Massapequa, New York. They moved to Pittsboro from New York in the late 90's and put the car in their basement - never to see daylight again until December 15th.

This is # 116 of less than 450 Hurst Editions built in 1973. Only two colors were offered, Tuxedo Black with Gold Stripes or Cameo White with Gold stripes.

A Piece Of History—Found By Dave Peedin (continued)

This car has only 35,237 original miles and all the documentation is with the car. Options include: Rocket 455 ci engine & Turbo 400 Trans, COLD A/C, console with Dual Gate floor shifter, swivel bucket seats, AM/FM Stereo with 8 Track tape deck, special half top vinyl roof, power windows, Gabriel Air Shocks, special Stage 3 wheels, Special Hurst graphics package, front power disc brakes (New for 1973), Original spare and wheel locks (never mounted).

All documentation and service records as well as manufacture warranty pamphlet and sales invoice & service manual.

Most interesting part: (all documented).

5 Complete Tune Ups.

4 Transmission Services.

29 oil, filter & lube change Records in the 35,000 miles driven.

A Piece Of History—Found By Dave Peedin (continued)

I spent 6 weeks going through the car, cleaning, polishing, buffing, and replacing anything that pertained to safety and reliability before attempting to crank and drive the car. No paint damage, no rust issues.

It is truly a gem and I'm very proud to have been connected to this lady through one of our club members.

The Trivia Page
Oldsmobile Toronado Facts

The Oldsmobile Toronado debuted in 1966 as the largest front wheel drive car ever and the first American fullsize front wheel drive car since the 1930s Cord. Oldsmobile had been working on front-wheel drive since 1958 .

The Toronado was no sports car. But with a standard 425 cid V8 rated at 385 bhp and aggressive styling, the Toronado could perform on the street. The drive system featured a split transmission with the torque converter behind the V8 engine and the gearbox located remotely under its left cylinder bank.

The only transmission option was the Turbo-Hydramatic heavy-duty three-speed automatic which had been mated to a unique silent chain-drive system called Hy-Vo in order to send power to the front wheels.

Designed by David North in 1962, who was an Oldsmobile stylist, the Toronado got flesh by taking some stylist inspirations from the Buick Riviera of the same year.

Firestone designed an 8.85" x 15" tire especially for the Toronado called the **TFD (Toronado-Front-Drive)** tire. It had a stiffer sidewall than normal, and the tread and stylishly thin white pin-stripe were also unique.

Styling featured a clean design with flat, slightly curved surfaces but with enlarged wheel arches. At the front, the pop-up headlights were flanked by taller fenders. The grille was also spread from one side to another of the vehicle, lower than the headlights and above the chromed, integrated metallic bumper.

The speedometer showed a "slot-machine" styling, where the numbers were marked with white letters on a barrel that rotated behind a thin line.

The Oldsmobile Toronado would remain in production over four generations between 1966 and 1992.
