**Dan Glover's 1957 Chevrolet 210**

*A Special Message from Pat Smith*

Greetings fellow club members, this is my seventh year as the Car Show Sponsorship Chairperson. Last year we set an all-time record with the assistance of John Martin's daughter bringing KB Homes in as a major contributor of \$5000. That being said I am extremely grateful for each and every donation we receive.

A big thank you goes out to Ed Stone for his efforts and turning in 14 Sponsorships so far this year. We are still far from the last 2 years of reaching an adequate goal.

it is not an easy job asking people for money, but someone's got to do it and I've been carrying the ball for quite a while. The most rewarding part is seeing what we as a club have provided for the kids at HILLTOP HOME.

**Patricia Smith

## Upcoming Events

Mr. Ed Lucas (our primary contact who arranged for PCCC to hold our first show at Midway Baptist Church) was the key player in connecting us with Mr. Tim Michaels, President of The Capital Auto Group as our Primary Sponsor for Hilltop Home for Children. Tim, Ed, and many others in his dealership group have a profound love for classic cars just as we do.

Our key point in this arrangement is that Capital Auto Group is comprised of over 30 multi brand dealerships and since PCCC is an "Open" club, we can support their events with our array of American Classics.

Great fit for us as well as C.A.G.

They have committed to donate \$5,000 to our charity. Therefore in return we need to support their shows as best we possibly can in 2024.

Piedmont Classic Chevy Club in return for their generosity, will be supporting many of C.A.G.'s events going forward. Future events for the Capital Auto Group will be coming in 2024 at various dealerships.

### The Outer Banks Rod And Custom Festival

Tim Martin has initiated a block of 16 rooms at See Sea Motel in Kill Devil Hills, NC. Several of our members have been in the past and had a GREAT time. Last year, OBX boasted of over 900 Classics, Trucks, Hot Rods, Rat Rods, Street Rods, Full Blown Customs, Custom Car Haulers, you name it, it was there. [Show dates are Friday and Saturday May 3rd & 4th 2024.](#) If you would like to join us, call the hotel or a booking agency and lock in your room. The deadline for booking is March 5th. Don't wait, as about 10 of those rooms have already been taken.

Note : some are going down on Thursday 2nd for a 3 night stay and travel home on Sunday 5th.

Note: when you call for reservations, be sure to tell the receptionist you are with the Piedmont Classic Chevy Club and ask them for our special rate.

Some others will stage a meeting place and travel down early Friday 3rd. It's an easy 3 hour ride straight down US Hwy 64 East all the way to Manteo, Kill Devil Hills, and Kitty Hawk. Do some research on the internet and check out all the nice restaurants and things to do while there.

I will send more detailed travel information out in the coming weeks.

For reservations, you can call the hotel at 252-489-1574 between 9:00 am & 6:00 pm or call 888-215-6768 for booking agency

Check out See Sea Hotel on the internet and also click on the link below for more information about this event.

**SPECIAL NOTE: THERE ARE NO TROPHIES OR AWARDS HANDED OUT. THIS IS A FESTIVAL.** Also, there are a number of cruise in spots to go to so you don't stay in one place all day.

If you have any questions, call Tim Martin at: 919-210-9688 or Dave Peedin at : 919-612-6998

<https://obxrodandcustomfestival.com/>

Star City Motor Madness in Roanoke Virginia., June 28 and 29. Last year show as canceled. Anyone who paid for last year is already registered and paid for this year. We will come back Blue Ridge Parkway on Sunday and stop at Mabry Mills for lunch and cruise on back to Raleigh.

*The Tech Page 'Don't Forget' —By, David Smith*

When changing breaker points on a distributor, do not forget to place a small amount of distributor cam lube on one lobe of the cam. This reduces the rubbing block wear and keeps the dwell within spec longer.

The strength of anti-freeze needs to be checked with the liquid temp between 60 & 70 degrees for the test to be accurate. Any reading above or below that temp range will be inaccurate.

Always keep your battery connections clean...don't forget the other ends that the cables connect to.

When replacing plugs, always use anti-seize compound on the plug threads and the wire connections with dielectric grease.

When removing a drive belt, mark it's rotational direction so it can be placed in the same direction. If installed in the reverse direction, the belt may have the potential of excessive stretching and fall off.

Any bolts that are removed should have the threads gently cleaned on a wire wheel and coated with anti-seize compound before reinstallation. This helps to assure that the correct torque is being applied when tightening. The studs on the wheels should have the same done to them.

If there is a heat riser installed, free it up with penetrating oil then treat the shaft / moving parts with a high temperature spray lubricant.

Lubricate rubber parts with a high quality spray silicone.

When checking the reservoir on the master cylinder, wipe or spray the cover with brake cleaner to prevent any dirt that may drop into the reservoir.

Always clean your funnels before adding any fluids to your engine. Airborne dirt and cross contamination will pollute the fluid and could have serious consequences.

Well as always, keep the shiny side up and the dirty side down.

*The Trivia Page - The Kurtis Sports Car*

The Kurtis Sport is a classic American sports car that was produced by Kurtis Kraft from 1949 to 1955. This car was designed by Frank Kurtis and powered by a 4.0-liter V8 engine that produced 200 horsepower. The car was built on a tubular chassis with a lightweight aluminum body and featured an advanced suspension system. The Kurtis Sport was a high-performance sports car that was capable of achieving speeds of up to 140 mph.

The Kurtis Sport 1949 was built using state-of-the-art engineering techniques and was one of the most advanced sports cars of its time. The car featured a unique independent suspension system that used torsion bars rather than traditional springs. This system provided excellent handling and stability. The It had a 1949 Ford chassis, suspension, brakes and V8 engine. Body panels were mostly aluminum over a steel frame, with some steel and fiberglass also used.

After Frank Kurtis realized that the car was not sustainable financially, largely due to production costs, he sold the KSC's manufacturing rights, along with its blueprints, parts, and tooling, to Earl "Madman" Muntz for \$200,000 in 1950. By that time, only 18 to 36 KSCs had been produced.
